No, it WILL be 1776 all over again, or more like 1775 all over again.

The patriot right will declares him an illegitimate usurper and imposter, and will refuse to recognize anything done by then Biden/Harris cabal as legitimate.

3rd Circuit Court of Appeals including 2  
GOP members. PA to give votes to Biden.

Of course. Is anyone really surprised by this?

I told you all the Dems would steal it.

I also told you the judges can't be trusted and they will go along with it - because they are in the club (and that goes for "conservative" judges too).

I hate being right about these things, and I derive no pleasure in it. But I told you so.

Trump has one, and only one, option left to both stop the steal and while at it defeat the deep state. I already laid it out. Remember what it is?

But hey, what do I know.

12/15/2020 2:38:09 AM

I disagree with this. The US House is controlled and dominated by the Democrats. The only way to get a delegation vote in the House for electors is if enough states DE-CERTIFY their election to deny Biden 270 Electoral College votes.

[cont'd]

12/15/2020 2:38:09 AM

*From:* Stewart Rhodes

*To:* OLD Leadership CHAT

The Constitution makes clear that the states select the electors and therefore President **UNLESS** no one gets 270 electoral college votes. Only then does it go to a House vote.

I don't believe the US Senate can de-certify what the states certified. Only the states can do that.

12/15/2020 2:38:09 AM

*From:* Stewart Rhodes

And you can bet the SCOTUS would jump in and say no to any such attempt.

Here is the REAL way forward:

The state legislators have till Jan 6 to de-certify their own prior certified election, proclaiming it too compromised to verify based on fraudulent results, and then do their duty to elect their own slate of electors.

Nonsense. He must do it NOW before Jan 6. And he needs to give the state legislators the time to decertify before Jan 6. In at least three of those states. Only then does it go to a vote in the House based on delegations.

I'll say it again. It is a tragic mistake for him to wait till Jan 6 or after.

Congress WILL stab him in the back. The GOP Senate will stab him in the back. Heck, McConnell has already made that clear.

You can expect it to go much like it did with the SCOTUS - only 2 out of the 12 did the right thing. Thomas and Alito. The rest turned on their duty and violated their oaths. And that included ALL of Trump's own nominees on the Court.

I am only guessing about what it going on in his head. Of course I can't know for sure.

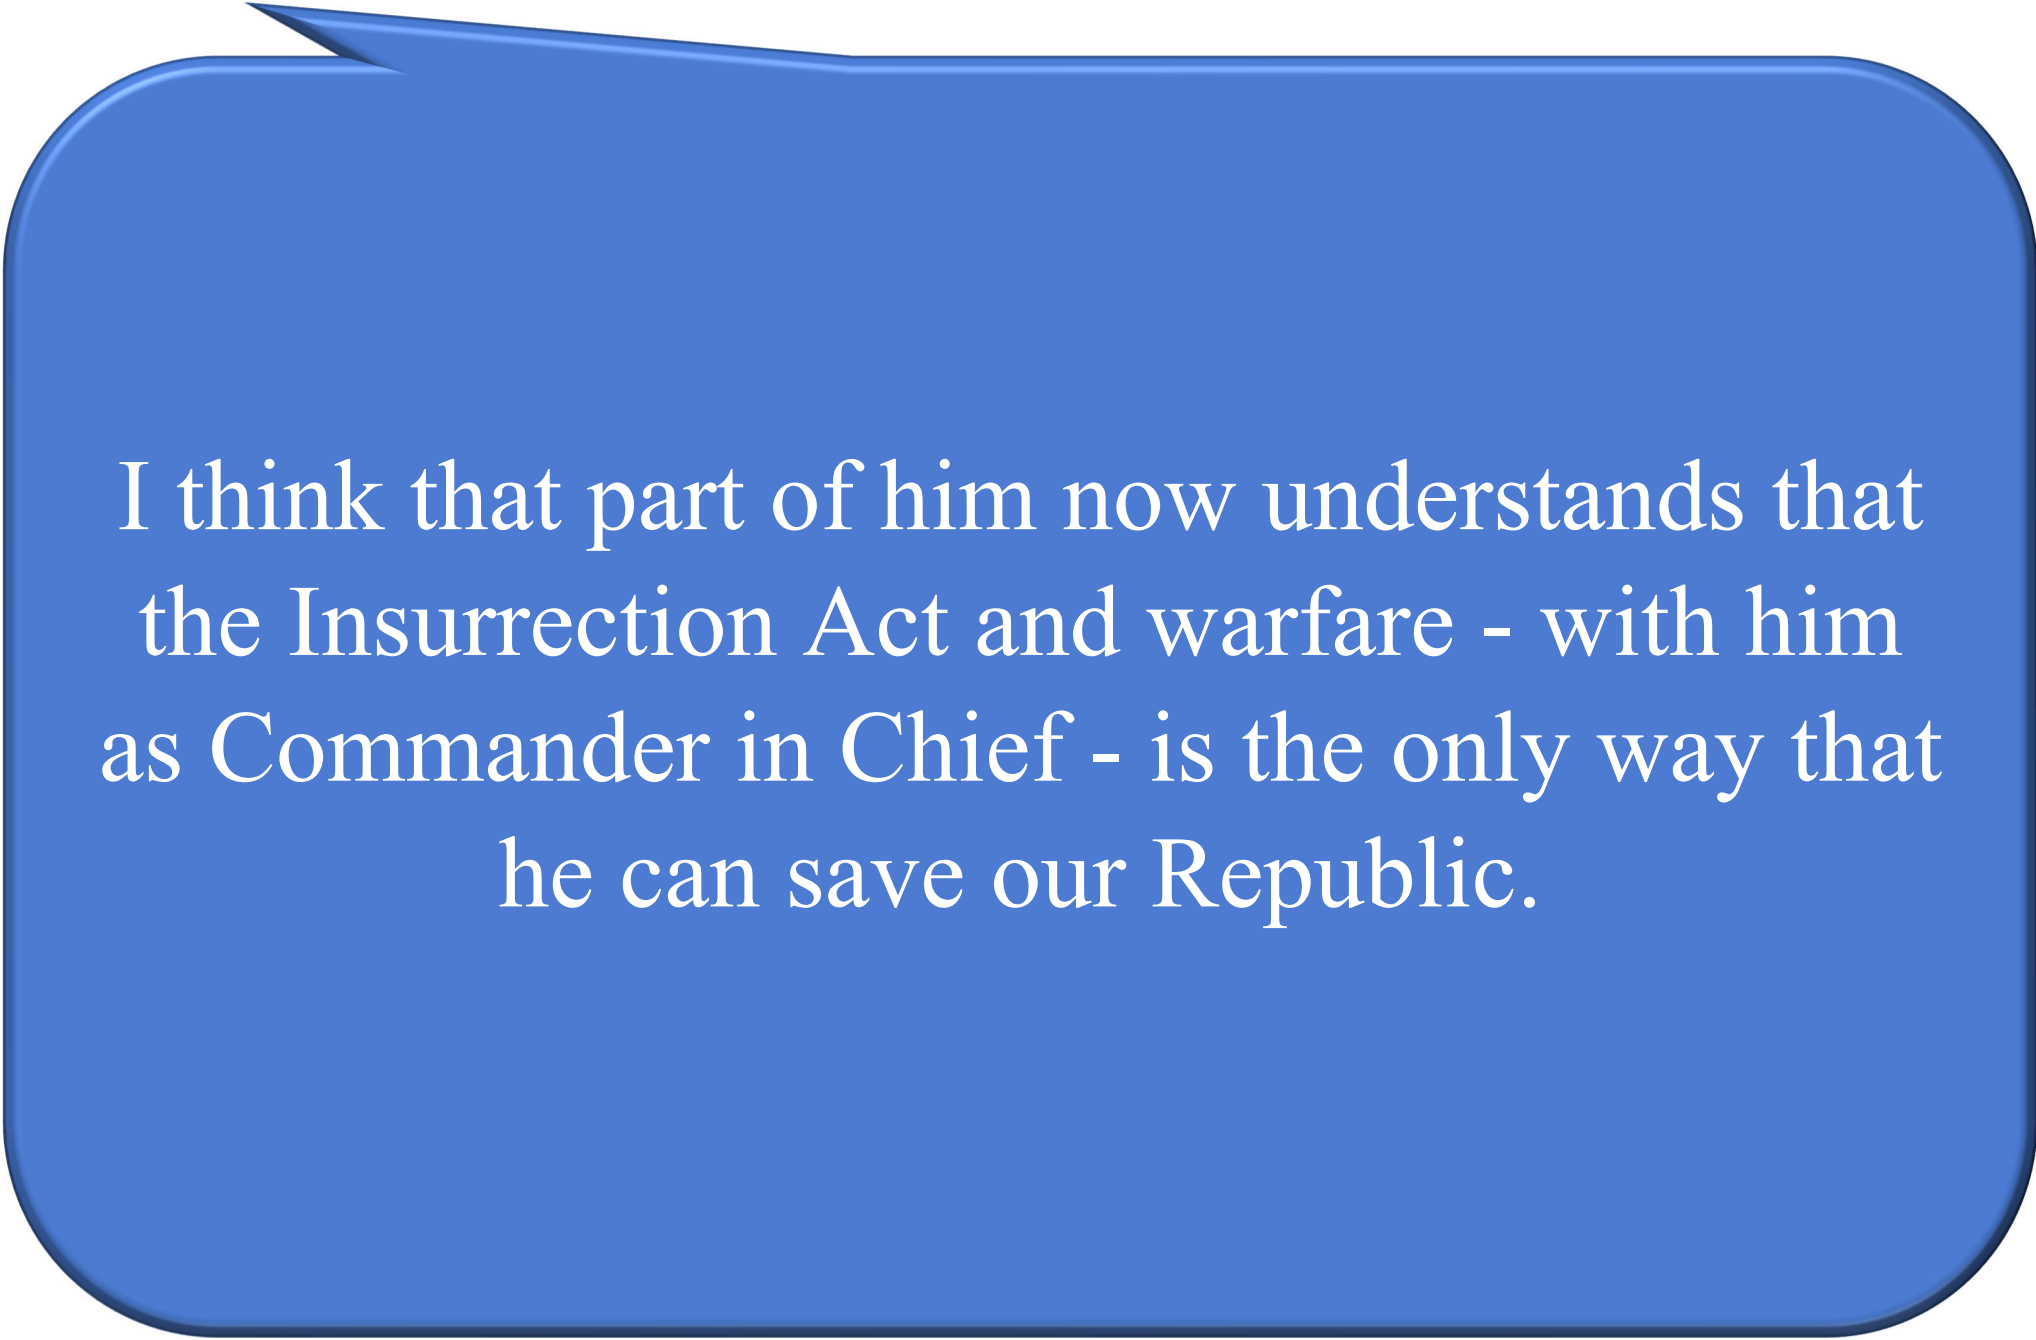

But I think part of him knows that there will be no solution within a rigged, corrupt, enemy occupied system.

12/29/2020 6:03:30 PM

*From:* Stewart Rhodes

*To:* OLD Leadership CHAT

But he needs to know that if he doesn't do it, we will. And if we have to do it ourselves, without him as Commander in Chief, it will be exponentially harder, and many more of us will die. And while we fight, our nation will be vulnerable to invasion. It will be horrific.

12/29/2020 6:08:09 PM

*From:* Stewart Rhodes

And he needs to know the dire consequences if he doesn't - that we will not submit to an illegitimate ChiCom puppet regime. That we will nullify, refuse to comply, defy, resist, and defend. The same path the Founders walked.
